# ==== *Veille technologique* ====

Ce document présente une série de captures d'écran illustrant la configuration et l'utilisation d'un système de veille technologique sur Feedly, une plateforme de gestion de flux RSS. Feedly permet de centraliser, organiser et suivre efficacement les derniers articles et informations pertinentes dans des domaines spécifiques.

- Aperçu général de l'interface Feedly (Desktop):

- Captures d'écran de la sélection de flux pour le projet Menu Maker et exemple du flux React Blog (version mobile):
